

COOKIES POLICY

Policy for the use of cookies on the website of DentaCare Sp. z o. o.

Our website may use cookies, which are used to identify a user's session when using our services. These files ensure proper operation of the Site.

Cookies are text files that are stored on the end device of the site's User. Typically, they contain the name of the website from which they originate, the amount of time they are stored on the end device, and a unique number.

Cookies used on the DentaCare website do not store any personal data or other information collected from Users.

Data collection

In accordance with the standard practice for most websites, we store HTTP requests sent to our server. This means that we know the public IP addresses from which users browse the information content on our site. Viewed content is identified by URLs. We also have knowledge of the following:

- time request was received,
- time response was sent,
- URL address of the page previously visited by the user (referrer link) - when DentaCare site was reached via link,
- information about the user's browser

These data are not associated with individual persons browsing the DentaCare site. To ensure the highest quality of service, occasionally we analyse the log files to determine which pages are visited most frequently, which web browsers are being used, whether the site structure contains errors, etc.

Use of data

The collected data are stored as auxiliary material used to administer the site. The information contained in them is not disclosed to anyone other than persons authorised to administer the server and the DentaCare network. On the basis of the log files, statistics may be generated in order to aid in the administration process. The collective summary in the form of such statistics does not include any identifying features of the site's visitors.

Types of cookies:

The DentaCare website uses the following cookies:

Cookie function	Purpose
Basic function	These types of cookies are essential for Website management. They allow us to recognise what type of subscriber you are and ensure that we provide you with appropriate services.
Function/Analytics	We use these cookies to analyse the availability of our sites, how they are used and how they work. We need this information to maintain, manage and continuously improve our services.
Functionality	These cookies allow us to manage certain functions of our site according to your settings. This means that when you continue to use the site or return to using it, we can provide you with our services in a way in which you chose them to be delivered by identifying your user name (e.g. if the site requires a login, the User does not have to re-enter the login and password on every page).

The Website uses two types of cookies: session cookies and persistent cookies. Session cookies are temporary files that are stored in the end device of the User until the User logs out or leaves the website or web browser. Persistent cookies are stored in the end device of the User for the time specified in the parameters of the cookies, or until their removal by the User.

Blocking cookies

In order to block the transmission of cookies, change your browser settings so that it refuses to accept, or deletes certain cookies. The following links contain information on how to adjust the settings of commonly used browsers:

- [Internet Explorer](#)
- [Mozilla Firefox](#)
- [Safari](#)
- [Google Chrome](#)

Please note that as a result of blocking cookies, some functions of the site may not be available.

Changes

In the event of changes to the existing policy, we will post those changes to the foregoing.
